Adam Weingarten

Senior Director, Controller,
Alzheimer’s Association

“Our finance department has received incredible value, far beyond the amount paid, from the ICPAS Corporate Access Program. We have local staff that attend the many in-person conferences and remote staff across the country that are able to utilize the wide range of OnDemand training.”

Gayle Bobo

Vice President, Asset Management and
Financial Planning, National Association
of Realtors

“The National Association of Realtors joined the ICPAS Corporate Access Program (CAP) in 2020 and it quickly replaced other tools as the primary resource for information gathering and sharing for our remote team. The program has offered our entire finance team an opportunity to attend various accounting, auditing, and tax conferences throughout the year, in addition to the ICPAS SUMMIT, at a considerable savings. Without the CAP, our team would miss valuable member content and updates. Corporate Finance Insight has become so valuable that we’ve given the bi-monthly e-newsletter a slot on our team agenda. In our new remote reality, we’ve come to rely on the OnDemand course offerings because of the flexibility they offer. The CAP has become the tool we didn’t know we needed and can no longer imagine working efficiently and effectively without.”
