on lease accounting
software by 2024

39,000

private companies using
software to account for
leases by 2024

46%

adoption rate for
lease accounting
software by 2024

Benefits for Your Clients

- ☆ A single place to easily forecast, manage, and account for any lease arrangement
- ☆ Full compliance with all legacy and new lease accounting standards under FASB, IASB, and GASB.
- ☆ Confidence in the system and security with a SOC audit performed by one of the Big 4 twice a year
- ☆ All journal entries, reports, and disclosures available with a click of a button
- ☆ US-based support staff with accountants available to help answer questions
- ☆ Detailed audit trail for each lease with who did what and when
- ☆ Automatically sends key date alerts so clients don't accidentally auto-renew unnecessary leases and don't miss payment dates protecting against late payment penalties saving potentially 10s of thousands of dollars annually
