Our Success Stories!

Don't just take our word for it – see what our satisfied clients have to say about their experience with Tax1099

I love how in Tax1099 I can upload the file, walk through the entire process, and easily upload it to the IRS directly... I can see what has been processed and where it's at.

Jullian Robison
Senior Manager

Tax1099 is head and shoulders above our previous procedures and any previous platforms that we have used. The import feature for W-2s and 1099s has saved us numerous times by quickly identifying SSN or EIN formatting errors, duplicated employees, and manual data typos saving us time and avoiding potential filing issues.

Jenny Minonno
Senior Associate (CAAS)

Tax1099 has completely transformed the way we handle tax filings. We can now upload forms in bulk, track their progress in real-time, and ensure everything is filed accurately and on time.

Amy
Senior Tax Manager
