

Tax research you can rely on

Tax research you can rely on should not come with tradeoffs. Blue J combines the authority of traditional tax research with the speed of AI in a solution your team will actually enjoy using. Defensible answers, faster results, and beyond easy to use. Together with the Illinois CPA Society (ICPAS), we are setting a new standard for tax professionals.

Beyond easy to use:

Ask tax questions naturally and get clear answers instantly, like consulting a trusted colleague who shows their work. Get started in minutes, no lengthy training sessions or implementation period required.

Instant, defensible answers:

Get accurate answers in seconds, backed by primary authoritative sources including, statutes, regulations, cases, and industry leading commentary. Every answer includes verifiable citations, so you know exactly where it came from.

Turn tax speak into client speak:

Quickly turn research into draft client communications, from emails to presentations. Deliver exceptional service by answering client questions as quickly as they come in.

Built for professional judgment:

Get the busywork out of the way so you can focus on your clients. Spend less time searching, more time advising—the way tax work should be.

"It saves time. Being able to quickly generate answers to questions, complete with relevant sources to ensure the accuracy of our position, enables us to be more responsive to client inquiries. As a result, I can turn around client questions much more quickly. What would have previously taken a half hour to an hour or more, takes 15 minutes with Blue J."
